CUMBERLAND
COLLEGE

A PROPOSAL PREPARED FOR HIGHER EDUCATION MARKETING

Cumberland College *for Applied Learning*

DIGITAL MARKETING · E-COMMERCE · CYBERSECURITY — MONTRÉAL · SURREY · ONLINE

Growth plan · 90 days

Marketing is at the cusp of everything. This plan puts Cumberland in front of the people ready to learn it, with TGS running the socials and enrolment campaigns, to fill the next intakes from Montréal to every screen in Canada.

Marketing is at the cusp *of everything.*

Every business, every creator and every product now lives or dies online, and AI rewrites the rules every month. The people who understand marketing are the ones every company will need next.

Cumberland College teaches exactly that: Digital Marketing, E-commerce and Cybersecurity programs leading to a recognized ACS diploma, online or on campus, mornings or evenings, in English or French. It's taught by marketers who do it every day, and built by the team behind Higher Education Marketing, which has marketed colleges since 2008.

The programs are ready and the website is solid. What's missing is presence where future students actually spend their time: Instagram, Facebook, TikTok and LinkedIn. **The plan: TGS takes over the socials, turns your teaching into content, and runs enrolment campaigns that fill the next intakes.**

NOBODY PICKS A SCHOOL FROM A PROGRAM PAGE. THEY PICK THE ONE THEY'VE WATCHED TEACH.

Every lesson is an ad.

OUR JOB: GET IT SEEN BY THE RIGHT PEOPLE

LEARN IT

900 hours. **Real projects.**

DO IT

Taught by people **who do it.**

GET HIRED

16 months to a **new job title.**

Illustrative images, replaced by TGS shoots at your campus. Students and staff appear only with written consent.

PROGRAMS

Digital Marketing (NWX.21), E-commerce (NWX.27) and Cybersecurity (LEA.E4): ACS diplomas recognized in Quebec.

FLEXIBLE

Digital Marketing: 900 hours over 16 months, online or on campus, mornings or evenings, EN or FR.

PRACTITIONERS

Courses taught by marketing experts who work in the field, backed by an agency founded in 2008.

TWO CAMPUSES

Montréal on de l'Esplanade, Surrey in B.C., and online across Canada.

What's already strong, *and what we add*

Cumberland has the programs, the teachers and the site. Every part of this plan builds on them. We add the camera, the channels and the campaigns.

CUMBERLAND TODAY

WHAT TGS ADDS

STREAM

Recognized, practical programs

ACS diplomas in the skills companies hire for now: digital marketing, e-commerce, cybersecurity.

Programs people can see

30-second micro-lessons filmed in class: what you'd actually learn, every week.

CONTENT

Teachers who do it for a living

Instructors who run campaigns, SEO and analytics for real clients.

The faces of the school

Your instructors on camera, the reason students choose you, finally visible.

FACES

A quiet social presence

Accounts that exist, but rarely show the classroom, the students or the results.

Socials, run by TGS

Instagram, Facebook, TikTok and LinkedIn: filmed, posted and answered, every week.

SOCIALS

Flexible formats

Online or on campus, evenings, English or French: built for real lives.

A message for every life

Career changers, new grads and newcomers, each with their own campaign.

AUDIENCES

An agency behind the school

Higher Education Marketing: education marketing since 2008.

Enrolment campaigns

Six campaigns built from the content, timed to each intake, every request tied to its post or ad.

CAMPAIGNS

A solid website and application

Program pages, info and an online application already in place.

More of the right traffic

Every campaign lands on the right program page, tracked with the Meta pixel, TikTok pixel and Conversions API.

GROWTH

Practise *what you teach*

A school that teaches marketing should market itself like the best in the class. Future students judge Cumberland by its feed before they ever read a program page. This plan makes that feed the proof.

THE SOCIALS TAKEOVER · INCLUDED IN THE PLAN

We run the socials. *You fill the intakes.*

TGS takes over Cumberland's channels end to end: strategy, filming, editing, posting, community management and the enrolment campaigns behind them. Your team approves; we do the rest.

TODAY		→	WITH THE PLAN
 Accounts that rarely show the classroom			4 channels 16 pieces a month, every week, every channel
Instagram REELS · STORIES	Student life, micro-lessons and info-session reminders, with a "Book an info session" button on the profile.		2× PER WEEK
TikTok 30-SECOND LESSONS	"Learn this in 30 seconds": one marketing skill per video, taught by your instructors. The series people follow for the next one.		2× PER WEEK
Facebook REELS · EVENTS	The same Reels, plus info-session events and funding explainers for career changers and parents.		2× PER WEEK
LinkedIn CAREERS · EMPLOYERS	Career changers, graduates at work and employers who hire them: the proof behind the diploma.		1× PER WEEK
Youth push META + TIKTOK · 18-24	The 8 short videos each month run on Instagram, Facebook and TikTok and are boosted to 18-24s in Quebec and B.C. The ad budget follows whatever they watch to the end.		8 PER MONTH

ANSWERED

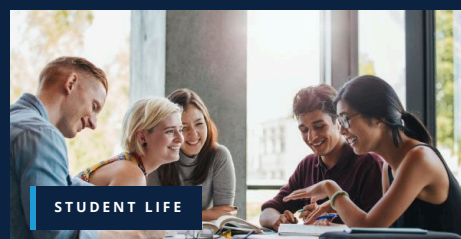

Every comment and DM answered within the business day, and every real prospect passed to admissions.

MEASURED

Info sessions and applications tied to the post or ad that brought them, reported monthly.

YOUR VOICE

Your team approves each week's content. Week 1: plan approved · week 2: first shoot · week 3: live everywhere.

The *SMART* goal

One goal behind every video, every campaign and every report.

THE GOAL, IN ONE LINE

Put Cumberland in front of the people ready to learn marketing, *turn them into info sessions and applications*, and fill the next intakes, in 90 days.

THE PLAN AT A GLANCE

S

Specific: people ready for a new career

Career changers, recent grads and newcomers in Quebec and British Columbia, plus online learners across Canada, choosing a program in the next six months.

M

Measurable: sessions, applications, enrolments

Info sessions booked, applications started and completed, and enrolments per intake, each tied to the post, channel and ad that brought them in.

A

Achievable: built on what already exists

Recognized programs, flexible formats, practitioner instructors, a solid site and application, and an agency that knows education marketing inside out.

R

Relevant: one student is sixteen months

Each enrolment is a full program, and a graduate who becomes the next testimonial, the next referral and the next post.

T

Time-bound: 90 days

Month 1: launch the channels. Month 2: accelerate before the winter intakes. Month 3: scale the best campaign into the spring intakes.

Our commitment. Socials, content, campaigns and reporting are on us. What happens after the info session (the admissions call, the funding file, the signature) is measured, not promised.

Micro-lesson

Campaigns

Info session

Application

Enrolled

From the feed *to the first class*

Choosing a career program means trusting a school with 16 months of your life. People watch for weeks before they ask. The plan follows the whole path, not one click.

1

See it

A 30-second lesson ("3 hooks that sell anything") from a Cumberland instructor, between her friends' posts.

2

Follow

She follows for the next lesson. Every week the feed teaches her something, and shows her the classroom.

3

Info session

One tap books a free 30-minute info session, online or on campus, in English or French.

4

Apply

An advisor walks her through schedules and funding options, then the application.

5

First class

She starts, and her story ("from retail to digital marketing") becomes the next post.

LEARN FROM PEOPLE WHO DO IT

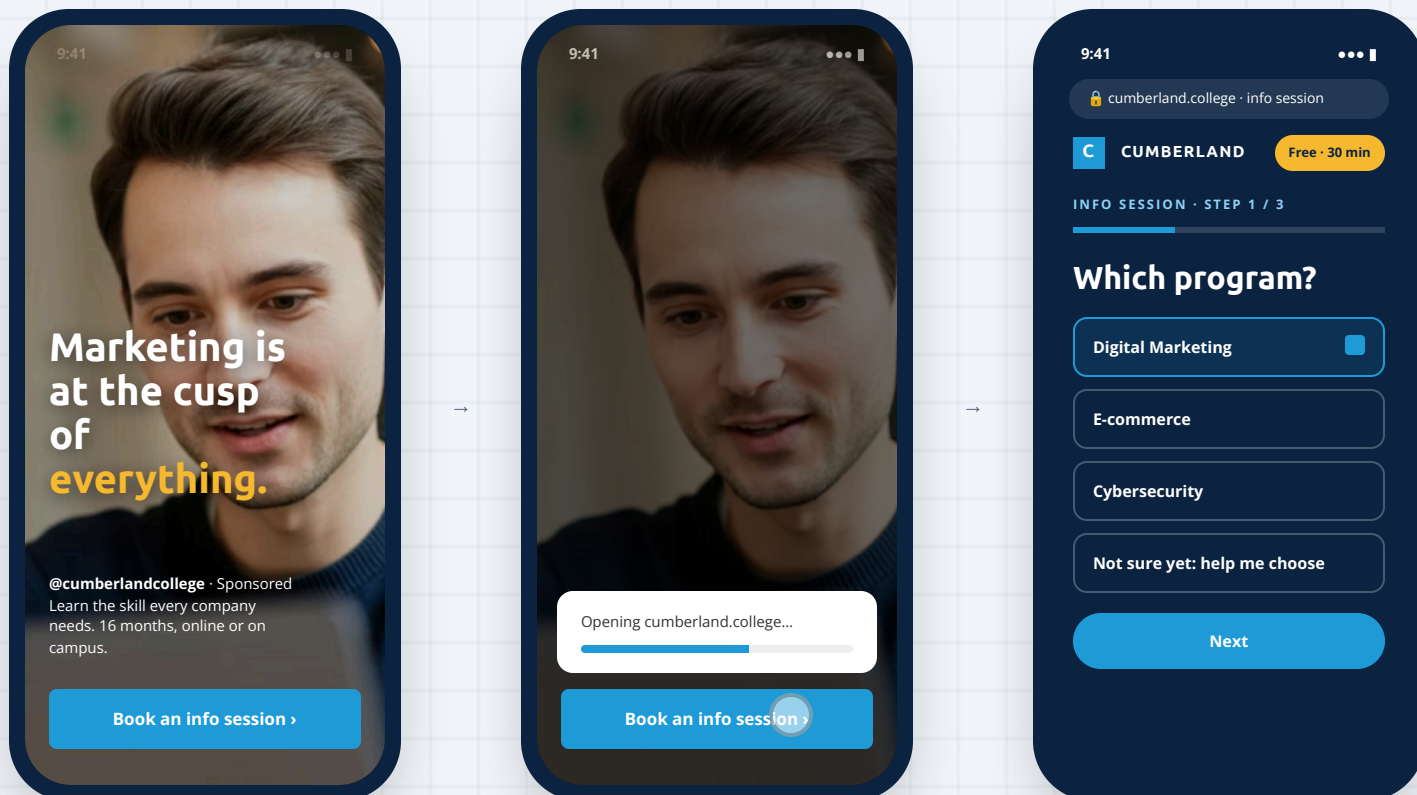

Your story is your edge. Cumberland comes from the team behind Higher Education Marketing, who have marketed colleges and universities since 2008. Here, students learn marketing from people who practise it every day. No other school can say that the same way. We make sure future students see it.

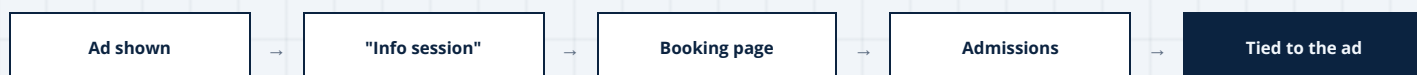

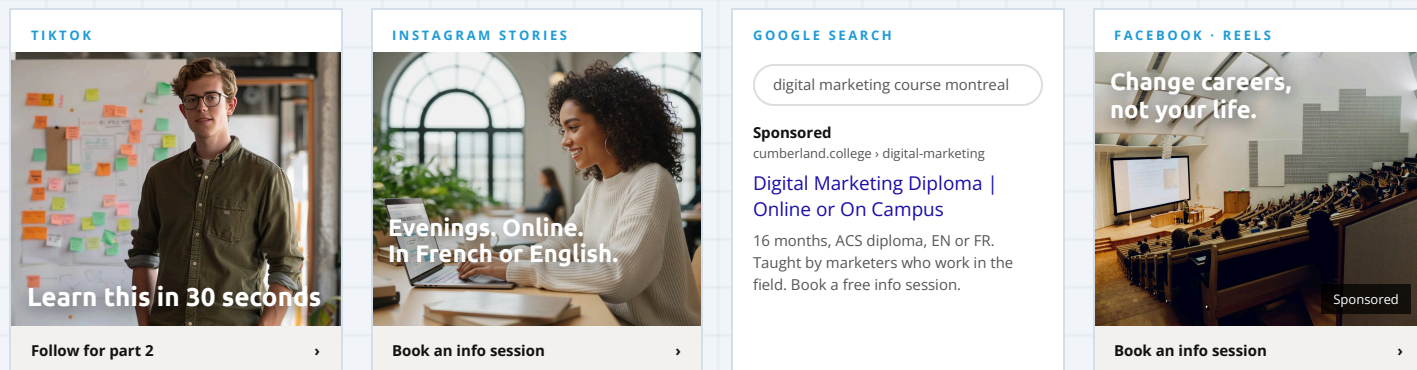

Scroll, tap, *start*

What a future student sees, taps and fills in, in under a minute, on TikTok or Instagram. The third screen is your site as it is today: we just send it the right people.

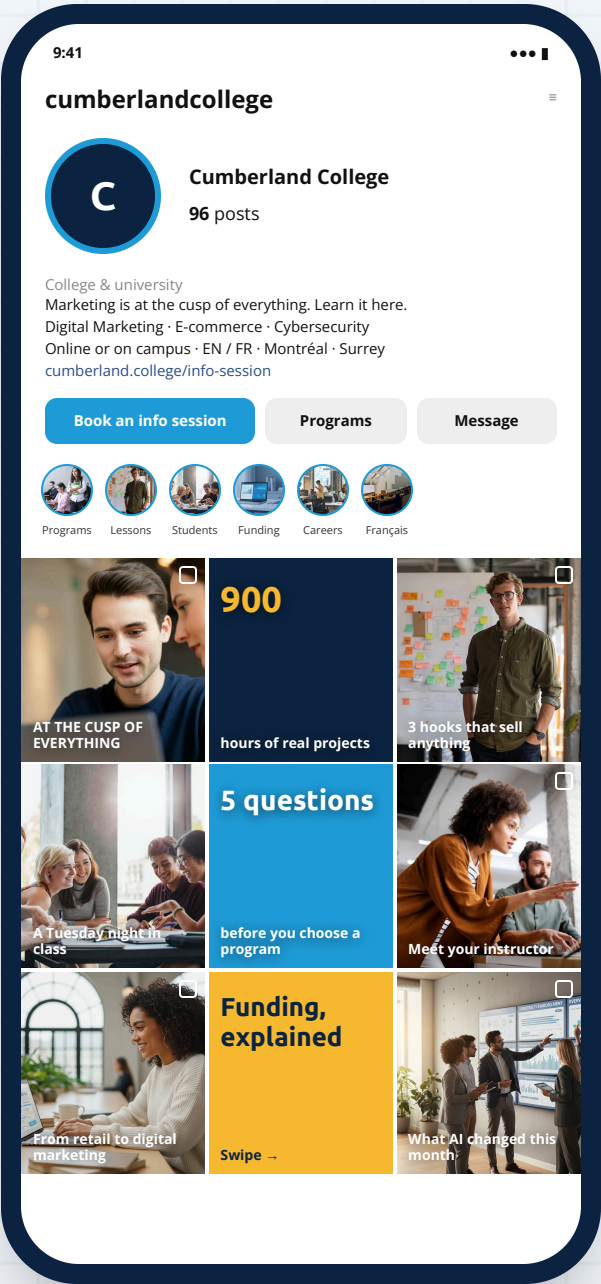

- 1 SEE THE LESSON**
A 30-second reel from your classroom: a real skill, a real instructor, between the posts she already watches.
- 2 TAP "INFO SESSION"**
One tap opens the booking page. No inbox, no waiting for a reply.
- 3 BOOK THE SESSION**
Program, format and language, tracked by the pixel and Conversions API, and sent to admissions.

SAME MESSAGE, FOUR PLACEMENTS, ONE BOOKING PAGE

Your Instagram, *three months from now*

A mockup of Cumberland's profile after one quarter of content: one template, one set of colours, one voice. Every post is recognizable before anyone reads the name.

- 1 A bio that sells in three lines**
The promise, the three programs, the formats, and the info-session link before the first scroll.
- 2 A button that books**
"Book an info session" opens the booking page directly, tracked like every ad.
- 3 Highlights that answer**
Programs, Lessons, Students, Funding, Careers and Français: the questions admissions hears every day.
- 4 A grid you recognize**
Same template on every tile: navy, cyan and a yellow spark, a bold title, one idea per post.
- 5 Lessons people finish**
Subtitled in English and French, shot in your classrooms, each one ending on "Follow for part 2."

Who we're *talking to*

Three future students, three reasons to start, and one program that fits each life.

THE CAREER CHANGER

28 to 45, working full time, stuck in a job with no future. Wants a real skill and a new title without quitting: evenings, online, with funding to make it possible.

Best approach: Facebook and Instagram, "Change careers, not your life", evening schedules, funding explained, the info session.

THE STARTER

18 to 25, out of CEGEP or university, lives on TikTok and Instagram. Wants something practical that leads to a job fast, not four more years of theory.

Best approach: the 8 short videos a month on TikTok, Instagram and Facebook Reels, boosted to 18-24s: "Learn this in 30 seconds", student life, "16 months to a new job title."

THE NEWCOMER

New to Canada, with experience but no Canadian credential. Wants a recognized diploma, in French or English, and a way into the local job market.

Best approach: Facebook and Instagram, info sessions in both languages, graduates who did it, "A Canadian diploma in 16 months."

WHAT MATTERS TO THEM

- A job at the end, not just a certificate
- A schedule that fits work and family
- Knowing how to pay for it before they apply
- Teachers who actually do the job

WHERE WE REACH THEM

- TikTok and Instagram: Reels, Stories, lessons
- Meta and TikTok ads: short lessons boosted to 18-24s
- Google Search: "digital marketing course" + city
- Facebook and LinkedIn: career changers, events

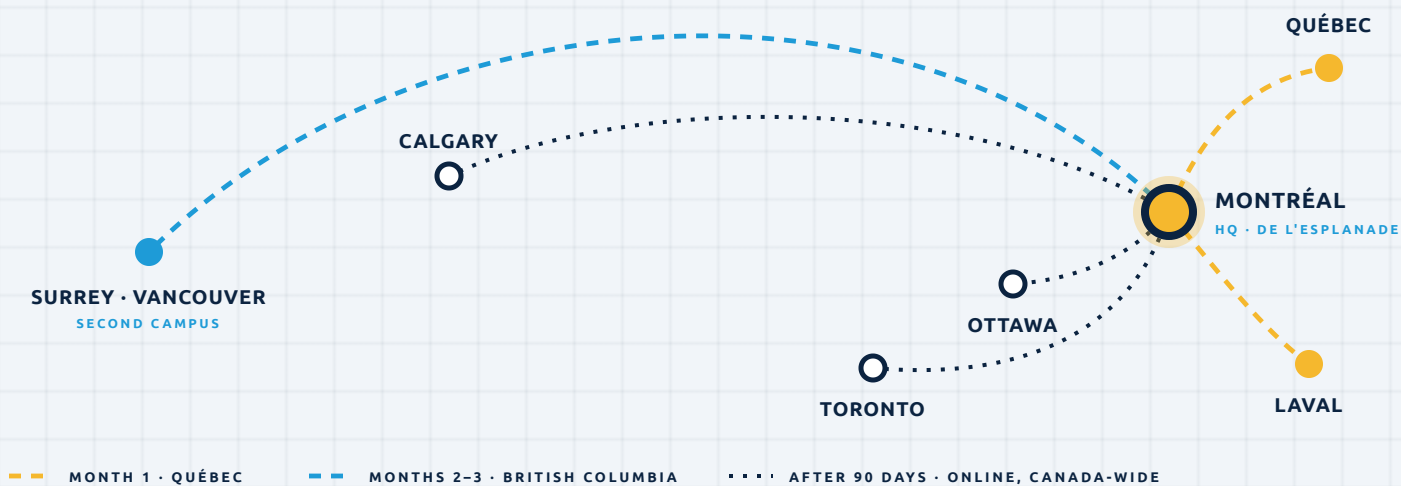

WHY VIDEO WORKS

A program page says "900 hours, 16 months." Thirty seconds of an instructor turning a boring product into an ad that sells says *"I could do that."* The first gets a bookmark. The second gets an info session.

From Montréal *to every screen in Canada*

Why cinema. Future students compare schools on their phones. A cinema-grade image says it right away: this is a serious school, run by people who know how marketing looks when it's done well.

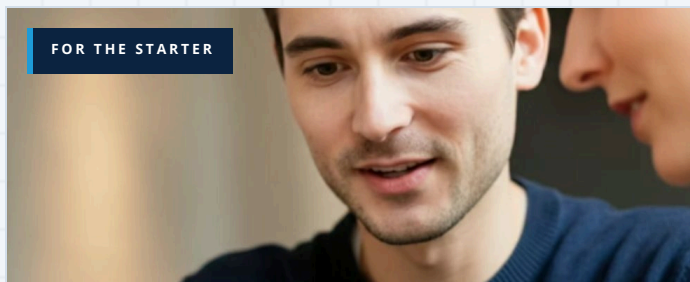

At the cusp *of everything.*

One idea runs through every film, post and ad: the world is moving forward, marketing is at the centre of it, and Cumberland is where you start, with structure and guidance the whole way.

THE MANIFESTO · VOICE-OVER OF THE BRAND FILM

Every product you love, someone had to make you notice. Every brand, every launch, every idea that took off: **marketing**. As the world moves forward, it's at the cusp of everything. The people who understand it will shape what comes next. **Start here**. With structure. With guidance. With people who do it every day. Cumberland College. Learn it here.

What happens, *step by step*

Six steps to the November 2 start.

01

Approve the 90-day plan

The Golden Standard, the billing schedule (\$4,000 a month for three months) and the November 2 start.

02

Grant access

Instagram, Facebook, TikTok and LinkedIn pages, Meta Business Manager, Google Ads, TikTok Ads, and Google Tag Manager on cumberland.college for the pixels and Conversions API.

03

Confirm the intakes and the facts

Upcoming start dates per program and campus, the info-session schedule, and the exact wording for programs, hours and funding.

04

Name your point people

Who in admissions receives bookings and DMs within the business day, and who approves content each week.

05

Book the first shoot day

Instructors for the 30-second lessons, a live class, and students and graduates who agree to be filmed, with written consent.

06

Approve the November calendar

Sign off on the mix so production and the first campaigns start November 2.

We're just up the road. TGS works out of 111 Chabanel Ouest, a short drive from your campus on de l'Esplanade. Shoots follow your class schedule, so nobody waits on the camera.
